Conference Essentials

This conference is an event for forensic identification professionals to join together to learn and share valuable advancements in the field.

- **The first day** of the conference features great hall presenters on recent cases or developments in the field
- **The next two days** contain a variety of workshops that each delegate selects prior to attending - focusing on developing and advancing specialties within identification
- **The last day** gathers all delegates again in the great hall for more presenters that all forensic identification investigators can benefit from
- **Speaker and workshop information to follow**
